

Curriculum Vitae

Shane Colquhoun

Mechanical
Engineer

.....
Toowoomba

Qualifications

- Mechanical Engineer
- Workplace Health & Safety Officer
- Member of Australian Institute of Refrigeration, Air Conditioning & Heating

Major Project Management Experience

Shane has seven years of experience in mechanical contracting in various projects such as:

Telecommunications - Telstra

- Refurbishment to numerous Telstra exchanges including upgrade and replacement of existing plant.
- Covering all air conditioning components including plant, ductwork, pipework, electrical and controls.
- Additional responsibility as principal contractors to include minor building works and air conditioning fire services integration.

Education – Queensland University of Technology

- Multi-faceted involvement with both facility management and building contractors.
- Investigation of existing air conditioning plant and recommendations for replacement including detailed cost analysis.
- Analysis and submission of tenders for refurbishment of laboratories, offices and general learning areas.
- Complete management of projects awarded including on-site co-ordination.

Health – Allamanda Private Hospital

- Retrofit of central air conditioning plant at Allamanda Private Hospital.
- Strategic planning for staged removal and replacement of major plant items.
- On site assessment and co-ordination of key construction activities.

Government – Ipswich City Council

- Air conditioning refurbishment projects at various council facilities.
- Liaison with facility management for planning and execution of works.
